Audit Access Expires Jun 15, 2020
You lose all access to this course, including your progress, on Jun 15, 2020. Upgrade by May 18, 2020 to get unlimited access to the course as long as it exists on the site. **Upgrade now**

1.1 Practice: Counting Numbers
About Practice

Every lesson in Fat Chance is followed by one or more **practice** problems written to further your understanding of concepts and techniques. Remember, practice is ungraded.

Practice problems have **unlimited attempts**.

If you get stuck on a practice problem, watch the corresponding Office Hours video. An Office Hours video immediately follows a practice problem or series of related problems. Professor Riehl will help you get started and even walk you through the entire problem step by step, if needed.

1.1 Practice Problem 1

0 points possible (ungraded)
In a sports stadium with numbered seats, every seat is occupied except seats 33 through 97.
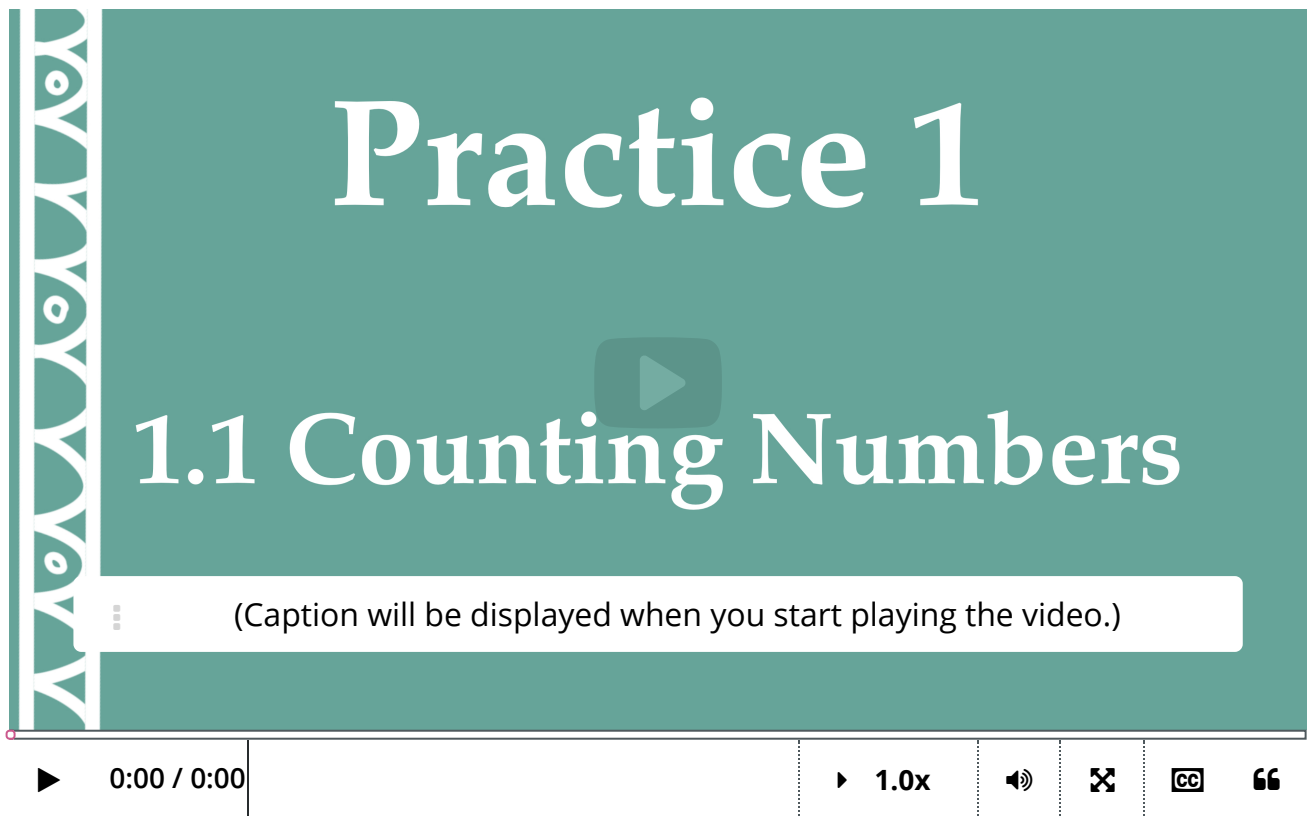

🖉

How many seats are still available? *Choose the best answer.*

1.1 Practice Problem 2

0 points possible (ungraded)

In a sports stadium with numbered seats, every seat is occupied except seats 33 through 97.

Suppose the fans are superstitious and only want to sit in even numbered seats because, otherwise, they fear their team will lose. How many even numbered seats are still available in the block of seats numbered 33 through 97? *Choose the best answer.*
